The screenshot shows the Discourse forum interface for SimSage. The URL in the browser is `discourse.simsage.ai`. The page features a header with the SimSage logo, a search icon, and a user profile icon. Below the header, there are two informational banners. The first banner states: "To make launching your new site easier, you are in bootstrap mode. All new users will be granted trust level 1 and have daily email summary emails enabled. This will be automatically turned off when 50 users have joined." The second banner says: "Let's [start the discussion!](#) There are 2 topics and 1 post. Visitors need more to read and reply to – we recommend at least 5 topics and 30 posts. Only staff can see this message." Below the banners, there are filters for "all categories", "all tags", "Latest", and "Top", along with a "New Topic" button. The main content area displays a list of categories with their respective topic counts and latest topics:
